FIXTURES/RESULTS

This screen is the main screen for viewing fixtures, results, club details and adding scoresheets.

All scoresheets can now be entered using the website by captains and fixture secretaries. Clubs should retain paper copies but these no longer need to be posted to Les or myself. The process for adding a scoresheet is detailed below.

The top section of the page is fixtures and shows all fixtures not yet played based on the date. Beneath this is results, this lists games that should have been played.

At the top of the screen is a filter box, this allows you to alter the fixtures being shown. The filter will search through the fields on the page for the text you enter. By default it searches all fields but you can alter this by clicking the magnifying glass to the right of the filter box and only ticking those fields you want to search, if in doubt just leave as is. It is not case sensitive i.e. you can type Nomads A or nomads a.

For example:

Nomads A – shows only fixtures for Nomads A – Mens, mixed and ladies

Nomads – All Nomads content

Heath A Mens – All Heath Mens A – if the side name has brackets then leave those out

October – all fixtures in October

To clear the filter click the X next to the filter box or delete the text in the box.

Trial and error, have a play!

The club names are hyperlinked, clicking a name shows you the club details i.e. where they play, what nights and times and gives the name, phone number and e-mail address of the fixture secretary.

If no scoresheet has been added then the option to add a scoresheet is displayed to the right of the fixture **if you are logged in**. Only captains and fixture secretaries can add scoresheets, you have to login to the website to add a scoresheet by clicking the login button in the top menu. This allows us to track who added the score sheet if there is a problem. Your username is in the format:

Firstname.surname

e.g. alan.griffiths

If you don't know your password then there is a **Lost your password?** option, clicking this will e-mail you a link to reset your password. The website needs your correct e-mail address to send the link. We imported data we had from last season so this e-mail may be wrong, if in doubt then drop me an e-mail at alang2101@hotmail.com and I will reset.

Adding a scoresheet

Log in to the website, it is the responsibility of the winning sides captain to enter the scoresheet, please can everyone retain the paper copies as a backup.

On the Results section of the Fixtures page, click Add a scoresheet next to the relevant fixture. An electronic scoresheet will display which will be prefilled with the fixture details at the top.

Enter the scores by either using the pull-down arrows or typing them in. The totals for rubbers and games should update accordingly.

Quick tip: When adding the scores you can use the dropdown but I find it quicker to click on the first score box in the first rubber, ignore the dropdown and just type the value, then press tab to go to the next box. Keep pressing tab to cycle through all the score boxes. If the score is in the teens i.e. 12 then when you type 11 it goes to 10, hit 1 again and it goes to 11, 1 again it goes to 12 etc. If you have a scan of the scoresheet then please attach it.

Submit Scoresheet

If the match is conceded then tick the Match Conceded box at the top of the scoresheet, it will then ask you who won.

If a scoresheet is not entered within 2 days of the fixture date then a reminder will go to both captains. If no scoresheet is entered with 7 days then reminders will go to both captains and the fixture secretary and me! Please help to make this a success by entering data in a timely fashion.

Once a score has been entered then an e-mail will go to the losing captain showing the score and asking for it to be confirmed or queried. Once confirmed then the Result will go green to signify it is locked and accepted.

The League tables will populate based on the results automatically.

Any problems should be reported to me - alang2101@hotmail.com
